

## **A DEDICATED PERSONALITY**

I heard about Dr Yashwant Kothari since very long years but have known him well only for the last few years since I became a part of Shri Acharya Bikshu Alok Sansthan kelwa & Vigyan Samiti Udaipur. Before that I had known him from a distance. But over the last few years I came to know and admire and love different faces of the man. Now I know him as a warm, humourous, compassionate, perceptive and unassumingly simple man- a person who is eager to share his store-house of knowledge and experience in the field of Religion, Art & Culture, Education, Environment, Agriculture development, Divyang Welfare and so on.

I am glad to know that we are going to felicitate Dr Kothari on his completion of 78 years of useful life. He had rendered yeomen service in the above mentioned field through Rotary and various other institutions. He showed remarkable capacity in developing a big empire of social service institutions with his relations. It has to be specially mentioned that his business organizations Rajasthan Agriculture Depot is also service oriented and the Kothari family as a whole had a desire to help people in large. His name will be rembered as a pioneer in many ways being multi dimentional personality.

Dr Y.S.Kothari is one for whom I have highest regard and admiration. In addition to unfailing inherent courtesy he has all the other qualities which win him friends in every part of India and the world over and drawn from all walks to life.

He has got a solution for any problem such as a job for Divyang people a seat in a school or college for someone else. All his life he has been helping others at all times in all ways he can. He always believes work is worship. His life has contributed a lot in all his achievements. May God shower his choicest blessing on this auspicious occasion and may he live more fruitful years to serve the people.
