

## ACHIEVEMENT OBTAINED IN CAREER BY PROF. (DR.) SOHAN RAJ TATER

**My contribution to Indian society** : My academic qualification is B.E. (Mech.), M.A. (Philosophy), Ph.D., D.Litt. Right beginning from start of my Academic career since year 1969 I made the aim of my life to serve humanity, to serve people. With this aim of life I served in Public Health Engineering Department, Rajasthan Government for 30 years upto the post Superintending Engineer. During this long tenure I gave employment as per rules to thousands of the needy persons, got drilled thousands of the wells and tubewells, got laid lacs of kilometers of pipelines and got released lacs of domestic connections to the poor persons residing in remote rural areas of Rajasthan state for drinking water. During this 30 years tenure I educated the public of Rajasthan state for importance and best utilization of pure, safe and easy availability of drinking water through literature written by me and through practical demonstration by lectures and projectors.

By changing my Academic career from Engineering to Education since last 10 years I taught quality education to P.G. level and Ph.D. level Research students in my subjects and inculcated human and moral values in them. My 12 Research books published in Philosophy, Yoga and Education subjects and sent complementary copies of these Research books to 80 popular University libraries of India. Thousands of P.G. level and Ph.D. Level scholars are taking full advantage of these Research books as text reference book in their courses. My 15 research books in these subjects are under publication which will be very useful to students of at least one hundred Universities. This way I served students and people by inculcating human and moral values in them.

I secured diploma in Prekshadhyan Jivanvigyan Yoga from J.V.B. University, Ladnun (Raj.). Since last 10 years I organized hundreds of the camps in Jain institutions, schools, colleges, Universities, Jails and at common public places and myself gave practical demonstration of various types of Asans, Pranayams and Meditations to lacs of public. Thousands of people controlled their emotions like – anger, ego, deceit and excessive greed with these practical demonstrations. Thousands of patients took benefit of these Asans, Pranayams and Meditations and cured their incurable diseases. Many violent people in Jails abandoned violence and became non-violent with the experiments of various contemplations by their brain washing. Lacs of school, college and University level students controlled their emotions and strengthened their memory and wisdom. I taught Philosophy, Yoga and Education subjects to more than 100 non-attached boys and girls who renounced their families and wealth since last 10 years and all of them became SANYASIS by taking initiation from Jainacharya Mahapragya. Those all 100 SANYASIS are preaching to lacs of masses throughout India and abroad for inculcating human and moral values in them. These are my biggest achievements of building lacs of civilized citizens of India by educating them human and moral based value education.

**WORKING FIELD OF EDUCATION ACTIVITIES** : I served/serving in following field of Education activities with full dedication and devotion in the Universities, colleges and institutes which are dedicated to extensive Education, moral and human values :-
